Mayor & Council,

The following is a weekly update on items of importance for the week:

1. Dredge project in full speed forward with sand pumping on south beach (see photos), Erik conducted site visit today checking sediment quality and overall progress – things look good.
  - ND indicated that they would be in this area (Station 70 to 50) filling for approximately the next 30 days filling +/- 400k c/y before moving on to west beach.
  - PW staff will conduct clean sweeps just prior to moving into next section of fill to get all debris – they have already made several pick-ups to date.
  - ND will set Council up w/ a trip to the barge – possibly on 19 NOV to view dredge operation on the vessel
  - DCM/CAMA Field Rep. conducted site visit on Wednesday - felt sediment was not beach quality but was briefed by Village that ND was working in channel placing the line under grade – No issues w/ DCM/CAMA/USACOE
  - Rick Kelly continues monitoring of ND
  - Village will get oblique aerial photographs throughout project starting in the next week or so
2. SPSC meeting has been scheduled for 19 NOV
3. NCIT Port Meeting scheduled for 13 NOV, joint meeting w/ BHA & VBHI Council
4. Village Creek Dock repairs getting underway to fix a broken piling and replace floaters.

Have a good weekend,

*Chris McCall*
