Subject: Weekly Update...

The following is an update on items of importance for the week:

1. Dredge Project is back up and running with a minor delay due to the recent weather system that made its way through over the past couple of days. Village made first payment to ND for 1.4 million (60% mobilization and 10% retainage).
2. Village Staff (Calvin, Chris, Chip, Russell, Nathan, and Chuck) attended the Local Officials All-Hazards Preparedness Training Course hosted at BC EMS and presented by folks with the National Emergency Response and Rescue Training Center. The workshop included a number of modules including getting a better understanding of the roles, responsibilities and preparedness challenges that we could possibly face before, during, and after an event.
3. New Mayor training was held and attended by Mayor-Elect Sayre in Raleigh earlier this week.
4. New Council Orientation with Village Departments was held on Wednesday and attended by our newest council member John Fisher and Mayor-Elect Andy Sayre.
5. Village received letter from DWQ identifying the ability for the Village to pump stormwater into lagoon #3 on the 15th hole if need arises due to flooding from a storm event.
6. Village engineer submitted notification of intent to DWQ to reconfigure lagoon #3 on 15th hole as our 1st step towards requesting the EMC remove the lagoon from the effluent system so that we can place it in the storwater management system.
7. Received build-out estimates from Limited @ 583,000 GPD for a proposed 2,462 REU's (Residential Equivalent Unit).

Hope you all have a good weekend and look forward to seeing all at the party this evening.
