

# The Village of Bald Head Island

## MEMORANDUM

**Date:** May 1, 2009

**To:** Mayor and Council

**From:** Chris McCall, Assistant Village Manager/Development Services Director

**Cc:** Calvin Peck, Village Manager  
Department Heads

**Re:** Weekly Status for 27 APR – 1 MAY 2009

---

**Debris Management Mandatory Pre-bid Meeting** – Staff working with Johnson Environmental held a mandatory pre-bid meeting for prospective contractors interested in bidding on the upcoming 2009-2010 pre-positioned debris management contracts. These contracts, as in years past, are put in place as a reactionary measure to ensure the Village has adequate response for debris removal in the event of a severe damage relating to a hurricane system i.e. Category III or greater. These contracts include C&D and Vegetative Debris removal, Dangerous Trees & Hanging Limbs and Sand Sifting & Removal.

**Village Wellness Program** – The NC League of Municipalities will be on island for final assessments of village employees to assess the staff and their wellness goals set back in July 2008.

**Progress Energy Line Energizing Project** – P&E is planning to energize the last portion of the cable replacements on Baldhead Island. There will be brief power interruptions as they energize each transformer. The affected areas are Laughing Gull Trail, Starrush Trail, Coots Court, Mourning Warbler Trail, Snowy Egret Trail, Baldhead Villas and South Baldhead Wynd from Baldhead Villas to Laughing Gull Trail. The anticipated date for this work is the week of May 18, 2009. Staff will make every effort to notify the residents along these roads of the upcoming disruptions in service.
